

## Carlisle Police Department Says Goodbye to Officer Stephen Badger after Nine Years of Service

On December 5, 2016, Officer Stephen Badger officially left the Carlisle Police Department to seek a medical retirement. Officer Badger, a life-long resident of Carlisle and graduate from Carlisle High School, had been with the department since 2007. Over his nine plus years with the department, Steve served the department and community in several roles. During his tenure, Steve was a patrol officer, a trained evidence technician, and also served as a detective for the department. Steve's expertise and his knowledge of the community was a great asset to the department and will be greatly missed. It has been a pleasure to work with Steve and watch him become an excellent police officer. I wish him the best in his retirement and in his future endeavors.

Already down one officer in the department, the retirement of Officer Badger left us with two police officer openings. On December 12th, Jenna Fisher was promoted from part-time police officer to full-time officer to fill one of those vacancies. Jenna has been working part-time since August and will be on probation for a year while she learns the duties of her new job. We are fortunate to be able to promote Officer Fisher as she already has completed several months of training with us. I want to offer my congratulations to Jenna. We are very glad to have her as a full-time officer.

- Chief Michael Bruck

## From the Desk of the Carlisle Fire Chief....

I would like to wish everyone a happy and healthy New Year. The members of Station 11 would like to extend a our congratulations to Firefighter Jordan Holbrook for recently completing his Level 2 Fire Certification. A Level 2 Fire Certification means that Jordan successfully completed a 260 hour course and now meets the State of Ohio Professional Level Fire standard. This is above the basic 36 hours course to be a certified Volunteer Firefighter. Well done Jordan!

Jordan Holbrook

We would also like to congratulate Assistant Fire Chief Robbie Miller and Firefighter Karl Robinson on completing their EMT Basic course. Though not a requirement, they have both chosen to continue their education in public safety in hopes of providing better fire services to the community.

The department is currently seeking Volunteer Firefighters. If you are at least 18 years old, have a high school diploma or GED, and live in or around the Municipality, we welcome you to check us out. All initial training is paid for by the Fire Department. Members receive an bi-annual reimbursement for calls and training. All uniforms and equipment are also provided. If you are interested, please contact Chief Holbrook at [jholbrook@carlisleoh.org](mailto:jholbrook@carlisleoh.org). Until next time, be safe.

# Reminder—Remove Vehicles from Village Streets to Allow for Snowplow Traffic

Snow season is upon us. The Carlisle Service Department reminds everyone to follow a few guidelines to make it easier to keep our streets clear and safe.

- \* Plowing generally begins when snow becomes 1 to 3 inches deep.
- \* Please be patient. Streets are plowed according to their priority and reviewed at the end of each season. Service personnel concentrate on keeping primary roads clear. Secondary priority is given to major residential neighborhood streets. All other village streets will be cleared as soon as possible after a storm is over. As a reminder, the State of Ohio Department of Transportation is responsible for plowing and salting SR123/Central Avenue. Therefore, you may see their trucks out at different times from the Carlisle Service Department during a snow event.
- \* Vehicles should be removed from all Village streets in order to allow for the snowplows. A snow emergency is automatically declared whenever there is 2" or more of accumulated snow on the ground. **Any vehicle that is left on a village street during a declared snow emergency is subject to ticketing and/or towing at the owner's expense.**

---

## 2017 Village Road Project Schedule

This summer, there will be two major road resurfacing projects in the Village. Traffic will remain open during the resurfacing, but will be periodically reduced to one lane. Construction updates will be posted on the Village website—[www.carlisleoh.org](http://www.carlisleoh.org)—and the Village Facebook page.

- **Beachler Road**—Thanks to a 69% grant award from the Ohio Public Works Commission, Beachler Road will be getting a much needed facelift in 2017. The project will begin near the CSX railroad crossing on Beachler and end just after the road curve on DuBois Road (before Carlisle Crossing Apartments).
- **Jamaica Road**—The Village received a generous 80% STP/ODOT grant to resurface Jamaica Road in 2017. The project will begin near the Central Avenue/Jamaica Road intersection and end approximately at Grigsby Intermediate School.
